Hello! My name is Ibrahim Hayek. I'm a husband, father, photographer, and educator based in the NJ/NY area.

I'm passionate about capturing classic and romantic weddings for elegant couples who are joyfully in love.

I believe that capturing love stories for my couples and their future generations is the first step in creating the legacy of a fulfilling marriage. Every couple deserves to have their love story told through beautiful images and classic heirloom albums that last a lifetime. My wish for you is that, years from now, your grandchildren will look at your wedding images, fall in love with your story, and feel like they were there on one of the days that mattered most in your lives.

Thank you for downloading my guide! I'd love to know how you liked it, and if you'd like to learn more about what I offer, be sure to reach out! You can email me at HayekStudiosNJ@gmail.com

Happy Wedding Planning!

All the best,
Ibrahim
